EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

1. This communication is an Examiner's reasons for allowance in response to application filed on April 22, 2004, assigned serial 10/829,323 and titled "METHOD AND ARRANGEMENT FOR DETECTING A DRIVING STATE".

2. The following is the Examiner's statement of reasons for the indication of allowable subject matter:

a. After carefully reviewing the application in light of the prior art of record, the amended claims and additional search of all the possible areas relevant to the present application, a set of related prior art references has been found, but those prior art references are not deemed strong to make the application unpatentable. Thus, it is found that the application is now in condition for allowance.

b. Although the prior art disclose several claimed limitations, none of the references teaches a method and an arrangement for detecting a driving state from a plurality of driving states stored in accordance with the degree of danger thereof and comprising at least the steps of allocating at least one test criterion for at least one driving parameter of a plurality of driving parameters to each of the driving states, detecting at least one of the driving parameters, and based on the detected driving parameter, testing to determine if one of the driving states from the plurality of driving states is present by testing in a time sequence starting with the most dangerous of the driving states by evaluating the test criterion corresponding thereto (claims 1, 11 and 12). Also, neither references teaches that the plurality of driving states includes a first driving state with a tilt tendency during a dynamic maneuver, a second driving state with a tilt tendency during a quasi-static drive in a curve, and a third driving state during travel along a slope or at standstill on a slope (claims 2 and 3).

Art Unit: 3661

c. Claims 1-20 are allowable over the prior art of record.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to examiner Tan Nguyen, whose telephone number is (571) 272-6966. The examiner can normally be reached on Monday-Thursday from 5:30 AM-4:00 PM

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thomas Black, can be reached on (571) 272-6956.

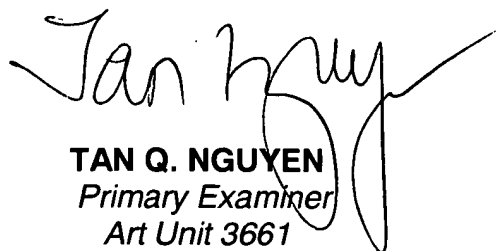

Any response to this action should be mailed to:

Commissioner of Patents and Trademarks
Washington, D.C. 20231

or faxed to the Central Fax: (571) 273-8300.
